

**Table 7-8. Amount and percentage of funds for science and engineering research facility capital projects at predominantly undergraduate institutions<sup>1</sup> by institution type and source of funds: 1992-1993**

| Predominantly undergraduate institutions | Total                         | Government |             | Private donations | Institutional funds | Tax exempt bonds | Other debt | Other sources |
|--|-------------------------------|------------|-------------|-------------------|---------------------|------------------|------------|---------------|
|  |                               | Federal    | State/local |                   |                     |                  |            |               |
|  | [Current dollars in millions] |            |             |                   |                     |                  |            |               |
| Nondoctorate HBCUs .....                 | 34.4                          | 6.8        | 24          | 1.4               | 0.6                 | 0                | 0          | 1.6           |
| Comprehensive universities .....         | 74.5                          | 5          | 60          | 5.3               | 0.6                 | 3.7              | 0          | 0.01          |
| Liberal arts colleges .....              | 15.8                          | 4.1        | 0           | 4.1               | 5.7                 | 1.8              | 0          | 0.05          |
|  | [Percentage of total funding] |            |             |                   |                     |                  |            |               |
| Nondoctorate HBCUs .....                 | 100                           | 19.8       | 70          | 4.1               | 1.5                 | 0                | 0          | 4.6           |
| Comprehensive universities .....         | 100                           | 6.7        | 80.5        | 7.1               | 0.7                 | 4.9              | 0          | 0             |
| Liberal arts colleges .....              | 100                           | 25.9       | 0           | 25.9              | 36.1                | 11.4             | 0          | 0.3           |

<sup>1</sup> The Carnegie Classification of Institutions of Higher Education is used to distinguish between two different groups of predominantly undergraduate institutions: core universities, those that offer a liberal arts program along with other programs such as engineering, business administration, or nursing; and liberal arts colleges, those award bachelor's degrees and that grant more than half of their degrees in the liberal arts.

NOTES: Because of rounding, components may not add to 100.

Dollar amounts are reported in current dollars, unadjusted for inflation. See Table A-5 in the Technical Notes for the inflation adjustment used in Volume I of this report.

KEY: "HBCUs" = Historically Black Colleges and Universities
